

PRIDE Math Incoming 7th and 8th Grade Summer Work

All PRIDE math students should spend AT LEAST an hour a week – either all at once or in small increments – using mathspace.com. New assignments will be released each Monday. Your child knows their user name and password. If you are new to St. Mark or your child is having trouble logging in, please reach out to me at the email provided.

They also have access to Prodigy if they would like to do something extra.
